MASTER SERVICES AGREEMENT

This Master Services Agreement (the "Agreement") is effective on the date of the last signature below (the "Effective Date") between Bryce Labs LLC ("Developer") and _____ ("Company"). Each is a "Party" and together they are the "Parties." This Agreement establishes the general terms for Services described in separately signed Statements of Work. Service commencement, fees and any minimum commitment are specified in the applicable Statement of Work.

1. Definitions

(a) "Affiliated Companies" means Velocity Builders LLC, Tiago LLC, Dirt Kings, Heritage Homestead LLC, Thirty Acres LLC, Bloomfield Property Group, and any other business Company identifies in writing that is under common ownership or control with Company.

(b) "Company Material" means: (i) content, data and documents provided by or on behalf of Company or any Affiliated Company, including accounting, bank, point-of-sale, rent, operational and financial data, whether supplied initially or retrieved through a connection Company authorizes; (ii) Company's and the Affiliated Companies' names, domain names and trademarks; (iii) proprietary technology, software, hardware, designs, information and documentation provided by Company; and (iv) third party software provided by Company.

(c) "Confidential Information" means nonpublic trade secrets, know-how, technical, business, financial or other proprietary information disclosed by one Party to the other that is marked confidential or that a reasonable person would understand to be confidential from its nature or the circumstances of disclosure.

(d) "Developer Material" means pre-existing software, tools, designs, documentation, methods and other materials owned by Developer, and general-purpose routines, frameworks, processes and technologies created, adapted or used by Developer in its business generally and not specially developed for Company, together with their Intellectual Property Rights. Company Material, Third Party Material and Work Product are excluded.

(e) "Intellectual Property Rights" means, on a worldwide basis, any and all: (i) rights associated with works of authorship, including copyrights, moral rights, database rights and mask works; (ii) trademarks; (iii) trade secret rights; (iv) patents, designs, algorithms and other industrial property rights; (v) other intellectual and industrial property rights of every kind and nature, however designated, whether arising by operation of law, contract, license or otherwise; and (vi) registrations, initial applications, renewals, extensions, continuations, divisions or reissues thereof now or hereafter in force (including any rights in any of the foregoing).

(f) "Third Party Material" means any software, tools, services, designs, documentation, data or other material of any third party, including accounting, banking-data, point-of-sale, cloud hosting and artificial intelligence services.

(g) "Work Product" means deliverables and other work product created specifically for Company under this Agreement, including Software, dashboards, configurations, prompts, question sets and Company-specific documentation, excluding Company Material, Developer Material and Third Party Material.

(h) "Software" means any computer program, including source code and object code, developed by Developer for Company pursuant to a Statement of Work.

(i) “Statement of Work” means a written description referencing this Agreement and containing relevant details regarding the Services and Work Product to be provided to Company by Developer, including scope of work, fees, payment and timing.

2. Services

(a) Services. Developer will use commercially reasonable efforts to provide the services described in each signed Statement of Work (“Services”) in accordance with this Agreement. Exhibit A is the initial Statement of Work. Later Statements of Work may use the same form or another form signed by both Parties.

(b) Affiliated Companies. Services may cover the Affiliated Companies. Company is responsible for obtaining any authorization needed from each Affiliated Company for Developer to access and use its data under this Agreement, and Company’s obligations under this Agreement apply to the Affiliated Companies’ data and requests made on their behalf.

(c) Company Cooperation. Company will provide timely access to systems, accounts, personnel, accurate information, decisions and Company Material reasonably necessary for the Services. Developer will promptly identify material dependencies or delays. A Company-caused delay extends affected delivery targets by a reasonable corresponding period; it does not excuse unrelated obligations.

(d) Read-Only Financial Access. Unless a Statement of Work expressly states otherwise, connections to Company’s bank accounts, accounting systems and point-of-sale systems will be read-only. The Services do not include initiating payments, transfers or other movements of money. Company will complete bank connections itself through the applicable third-party connection service, and Developer will not ask for, view or store Company’s bank passwords.

3. Fees and Billing Procedures

(a) Payment. Company will pay the fees specified in the applicable Statement of Work in U.S. currency within thirty (30) days of the invoice date, unless that Statement of Work expressly states a different due date. Past due amounts bear interest at the lesser of 1.5% per month or the highest rate permitted by law. Company is responsible for applicable sales, use and similar taxes on the Services or Work Product, excluding taxes on Developer’s net income. Developer will separately identify any tax charged on its invoice.

(b) No Contingent Fees. Fees are earned for Services performed and are not contingent on the success of any particular research, development or result.

4. Expenses

Unless otherwise specified in a Statement of Work, upon submission of reasonably detailed invoices, Company will reimburse Developer for reasonable pre-approved travel and incidental expenses that are actually incurred in connection with the provision of the Services. All reimbursements are to be made within thirty (30) days of the date of the invoice.

5. Term and Termination

(a) Term. The term of this Agreement will commence on the Effective Date and will remain in effect unless terminated in accordance with this Agreement.

(b) Mutual Agreement. The Parties may terminate this Agreement by mutual written agreement.

(c) Termination for Breach. If either Party materially breaches this Agreement or a Statement of Work, the other Party may terminate the affected Statement of Work, or this Agreement for a breach affecting the relationship as a whole, by written notice specifying the breach and allowing twenty (20) days to cure, or ten (10) days for nonpayment. Termination takes effect at the end of that period if the breach remains uncured. Developer may suspend affected Services after the applicable cure period for Company's uncured material breach. Termination does not eliminate accrued payment obligations or remedies available under this Agreement.

(d) Termination for Convenience by Developer. Developer may terminate this Agreement on thirty (30) days' written notice only when no Statement of Work remains active, or as a Statement of Work expressly permits. Developer may not end a minimum commitment term for convenience.

(e) Termination for Convenience by Company. Company may terminate this Agreement on thirty (30) days' written notice, subject to any minimum commitment expressly stated in a signed Statement of Work. During such a commitment, a convenience cancellation does not relieve Company of the committed fees or entitle Company to a refund.

(f) Effect of Termination. Company will pay accrued amounts properly due. If Company terminates for Developer's uncured material breach under Section 5(c), Developer will refund any fee paid in advance for calendar days remaining after termination, within thirty (30) days; separately approved third-party charges already incurred are not refundable. This does not limit other remedies, subject to Section 9. Ownership, data export, source delivery and license rights are governed by Section 7 and survive termination. Hosting and ongoing support end with the Services unless otherwise agreed in writing.

(g) Survival. Accrued payment obligations and provisions concerning confidentiality, ownership, continuing licenses, handoff, disclaimers, liability and dispute resolution survive expiration or termination to the extent required to give them effect.

6. Confidential and Proprietary Information

Each receiving Party will protect the other Party's Confidential Information with reasonable care, use it only to perform or exercise rights under this Agreement, and disclose it only to personnel, contractors and service providers who need it for that purpose and are subject to appropriate confidentiality obligations. Company Material, including all financial data of Company and the Affiliated Companies, is Company's Confidential Information. Developer's nonpublic Developer Material is Developer's Confidential Information. Confidential Information excludes information demonstrably public without breach, lawfully received without a confidentiality duty, already lawfully known, or independently developed without use of the disclosing Party's information. Legally required disclosures are permitted with advance notice where lawful. Developer will use reasonable access controls, secure credential handling, private cloud networking and backups for hosted Company data, and notify Company without undue delay after discovery of unauthorized access to or disclosure of that data, cooperating in investigation and legally required notifications. Developer may use Company's name, logo, identifiable results or information in a public case study only with Company's prior written approval.

7. Rights to Work Product and License Grants

(a) Company Material and Data. Company, or the applicable Affiliated Company, retains ownership of its Company Material, including all financial, operational and communications data, whether supplied initially or retrieved during the Services. Company grants Developer and its service providers a limited license during the term of this Agreement to use that material solely to provide the Services and authorized transition assistance. This Agreement does not authorize sale of Company data or use of identifiable Company data to train general-purpose AI models.

(b) Work Product. Upon payment of the fees for the period in which Work Product is created, Developer irrevocably assigns, transfers and conveys to Company, without further consideration, all of its right, title and interest in that Work Product, including all Intellectual Property Rights therein. Developer will execute any documents or take any other actions reasonably necessary, at Company's request and expense, to perfect Company's ownership. Until assignment, Developer grants Company a nonexclusive license to use Work Product delivered to it for Company's business.

(c) Developer Material. Developer continues to own all right, title and interest in and to the Developer Material. To the extent any Work Product incorporates or requires Developer Material to operate, Developer grants Company a nonexclusive, royalty-free, perpetual, irrevocable, transferable, worldwide license to use, copy, operate, maintain and modify that Developer Material solely as part of the Work Product (or derivative works of it) for the business of Company and the Affiliated Companies. Company acknowledges that Developer provides similar services to others and may reuse its Developer Material and general skills, knowledge and experience, provided Developer does not disclose Company's Confidential Information or reuse Work Product owned by Company.

(d) Third Party Material. Each Party will obtain the third-party rights required for materials it supplies. Third Party Material remains subject to its applicable license and service terms; no broader rights are granted by this Agreement. Developer will identify material third-party dependencies and any costs requiring Company approval before commitment. Open-source license rights and obligations remain governed by their applicable licenses.

(e) Restrictions. Except as expressly provided in this Section 7, Company will not sell, rent, lease or otherwise transfer the Developer Material apart from the Work Product, or offer it as a product or hosted service to unrelated businesses.

(f) Source and Data Handoff. At expiration or termination, or on Company's written request, Developer will provide within fifteen (15) business days: (i) an export of Company's hosted business data in commonly readable formats; and (ii) a source-code copy of the then-current Work Product covered by paid fees, including Developer Material needed to run it, database schema and migrations, dependency information, deployment instructions and Company-specific configuration. Credentials will be transferred securely where appropriate or documented for replacement; unrelated client data and Developer's unrelated systems are excluded. This standard handoff is included in the service fees. Additional migration or transition work requires separate written agreement. Company data export is not conditioned on payment of a disputed invoice. Developer will allow thirty (30) days after the Services end for retrieval, then delete active Company data within sixty (60) days, except legally required records and isolated backups that expire on the normal retention cycle and remain protected. Continuing ownership and license rights do not include continuing hosting, support or future updates.

8. Warranty and Disclaimers

(a) Developer Warranty. Developer warrants that Services will be performed in a professional and workmanlike manner. For a breach of this warranty, Developer will, at its option, repair or replace the affected Work Product or refund the fees paid for the affected Services or Work Product. Developer has no warranty obligation to the extent a claim is caused by unauthorized modifications or combinations outside the agreed scope. This remedy does not eliminate Company's termination and refund rights for an uncured material breach under Section 5.

(b) Company Warranty. Company represents and warrants that it, and each Affiliated Company whose data it provides, has sufficient rights in the Company Material to grant the rights and licenses granted herein. Company shall defend and indemnify Developer from and against any third party claims, damages, losses, costs and expenses (including reasonable attorneys' fees) arising out of or relating to Company's breach of the foregoing representation and warranty.

(c) Information Tools. The Services provide information drawn from Company's connected systems and generated with artificial intelligence services. Answers and dashboards depend on the accuracy and timeliness of the underlying data and third-party services, may be delayed, and may contain errors. They are not accounting, tax, legal or investment advice. Company remains responsible for its business, accounting, tax and financial decisions and for verifying information before relying on it for those decisions.

(d) Disclaimer. EXCEPT FOR THE EXPRESS WARRANTIES STATED IN THIS SECTION 8, DEVELOPER DISCLAIMS ALL WARRANTIES RELATING TO THE WORK PRODUCT, DEVELOPER MATERIAL, THIRD PARTY MATERIAL, SERVICES, OR ANY OTHER SUBJECT MATTER UNDER THIS AGREEMENT, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTIES OF MERCHANTABILITY, NON-INFRINGEMENT, FITNESS FOR A PARTICULAR PURPOSE, FREEDOM FROM ERRORS, CORRECTNESS, ACCURACY, AND RELIABILITY, AND ALL UCC AND OTHER WARRANTIES ARISING OUT OF USAGE OF TRADE, COURSE OF DEALING OR COURSE OF PERFORMANCE.

9. Limitation of Liability

THE LIABILITY OF DEVELOPER UNDER THIS AGREEMENT TO COMPANY, REGARDLESS OF THE BASIS OF LIABILITY OR THE FORM OF ACTION, WILL IN NO EVENT EXCEED THE TOTAL AMOUNTS PAID TO DEVELOPER BY COMPANY FOR THE SERVICES, SOFTWARE, OR WORK PRODUCT AT ISSUE. IN NO EVENT WILL DEVELOPER BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, CONTINGENT, PUNITIVE, EXEMPLARY, RELIANCE OR CONSEQUENTIAL DAMAGES, HOWEVER CAUSED, WHETHER FOR BREACH OF CONTRACT, LOST PROFITS, NEGLIGENCE OR OTHERWISE, AND WHETHER OR NOT ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. The Parties expressly acknowledge and agree that Developer has set its prices and entered into this Agreement in reliance upon the limitations of liability and warranty disclaimers specified herein, which allocate the risk between Developer and Company.

10. Miscellaneous

(a) Entire Agreement and Order of Precedence. This Agreement and signed Statements of Work constitute the complete agreement concerning their subject matter and supersede prior oral or written discussions, including

proposal pages and mockups. This Agreement controls in a conflict, except that a Statement of Work may set its own scope, fees, payment timing and service term, or expressly identify a provision it amends. Other amendments must be signed by authorized representatives of both Parties. Each Party has had the opportunity to obtain independent legal advice.

(b) Relationship of Parties. For all purposes under this Agreement, each Party will be and act as an independent contractor of the other and will not bind or attempt to bind the other to any contract, and nothing contained herein shall be deemed to constitute either Party as an employee, partner, joint venturer, or agent of the other Party. Nothing contained herein shall prevent Developer from contracting or working with any third party.

(c) Tax Matters. Each Party is responsible for its own tax positions. Developer makes no representation about the tax treatment of fees paid under this Agreement, including deductibility or eligibility for any research credit. Company will rely on its own tax advisors. Any documentation obligation is stated in the applicable Statement of Work.

(d) Dispute Resolution. The Parties shall make a good faith effort to resolve any dispute between them by negotiation. Either Party may invoke the requirements of this Section by giving written notice to the other Party. Within ten (10) days after any such notice is given, the representatives of the Parties shall confer in the manner determined by agreement between them. If agreement as to resolution cannot be achieved within a reasonable time, either Party shall be free to exercise all available rights and remedies under this Agreement and applicable law.

(e) Governing Law; Attorneys' Fees. This Agreement, and all matters arising out of or relating to this Agreement, will be governed by the laws of the State of Arizona (irrespective of choice of law principles). In any action to enforce this Agreement the prevailing Party will be entitled to recover actual costs and reasonable attorneys' fees.

(f) Notice. Formal notices must be in writing and delivered personally, by confirmed email or reliable electronic messaging, by certified mail with return receipt requested, or by a nationally recognized express delivery service. Mailed notices go to the mailing addresses in Section 11; electronic notices go to the addresses designated in the applicable Statement of Work or later confirmed in writing. Notices are effective on receipt. A Party may update its address by written notice.

(g) Severability. If any provision of this Agreement is held invalid or unenforceable in any respect, that provision shall be limited or eliminated to the minimum extent necessary so that this Agreement shall otherwise remain in full effect and enforceable.

(h) Assignment. This Agreement may not be assigned or transferred by either Party without the prior written consent of the other Party, which consent shall not be unreasonably withheld, except that either Party shall be entitled to assign this Agreement to any successor to all or substantially all of its business that concerns this Agreement (whether by sale of stock or assets, merger, consolidation, or otherwise), and Company may assign it to an Affiliated Company, in each case without the prior written consent of the other Party. This Agreement will be binding upon and inure to the benefit of the Parties and their respective successors and permitted assigns.

(i) Waiver. No waiver of any breach of any provision of this Agreement will constitute a waiver of any prior, concurrent or subsequent breach of the same or any other provisions hereof, and no waiver will be effective

unless made in writing and signed by an authorized representative of the waiving Party.

(j) Force Majeure. Neither Party will be liable to the other for any delay or failure to perform that is due to causes beyond the reasonable control of said Party, and for the length of time that the force majeure event continues.

11. Signatures

The authorized representatives below agree to this Agreement. The Parties consent to electronic transactions and signatures and may sign in counterparts, each treated as an original and together one agreement.
